GBCHC: Quality Care Delivered with Respect and Dignity

If you visit the **Gary Burnstein Community Health Clinic** on any given day, you will see men and women receiving the healthcare and dental services they need to stay healthy. Why is this unusual? Because they're uninsured. And because at GBCHC, they receive top quality care at no cost.

That's because of you. Private funding from individuals and foundations, along with an amazing team of volunteer medical and dental professionals are what makes our work possible. You can imagine that even with Medicaid, even with the Affordable Care Act, there are still thousands of adults who are ineligible or otherwise unable to access these insurances.

Instead of neglecting preventative care, or ignoring chronic conditions, our patients are able to receive the care they need for a healthy life. We know that even a \$5 prescription can be a financial burden to many, so our full on-site pharmacy fills their prescriptions at no cost. At GBCHC, no matter their life circumstances, our patients feel respected and safe.

With your support, we made great progress 2019 and celebrate these accomplishments with you in this report. While I write this after the onset of the COVID-19 pandemic, I know the momentum of this past year combined with your support will provide the strength we need to continue serving our patients.

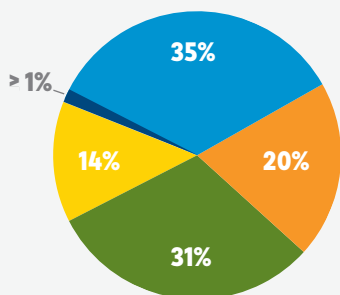

I hope you enjoy this report, and we all thank you for making GBCHC the largest free clinic in Michigan.

Justin Brox
GBCHC CEO

This food distribution program was supported by the D. Dan and Betty Kahn Foundation.

GBCHC is Michigan's largest free clinic.

Every service offered at GBCHC is available because someone cares.

Your support ensures that all adults in our community are not denied quality, respectful care because they are uninsured or under-insured.

You can help people today by making a donation or signing up to volunteer through our website.

You Make It Happen

GBCHC thanks all of our 2019 donors for your support. Your generosity is keeping men and women in our community healthy. In 2019, 749 donors contributed \$638,000 that was used to provide medical, dental and prescriptions services for those who are uninsured or under-insured. This list represents gifts of \$5,000 or more. GBCHC is grateful to every donor for every dollar of support. Thank you!*

"I was treated with respect, compassion and care..."

I had worked full time my entire life and was fortunate enough to have always had good health insurance coverage. At the age of 54 and after 14 years as a psychiatric social worker, I was laid off. Suddenly, my health care access and costs were my heaviest burden. I wasn't able to have my prescriptions filled or manage several chronic health conditions. I could not find anyone who would take new patients without insurance.

After a referral from Oakland County Health Department, I made an appointment at GBCHC. I didn't know what to expect from a "free clinic" and was more than a little skeptical. Upon arrival I was greeted by Patty, one of the kindest people I have ever known. She treated me like a real person, which I had not felt since I lost my job.

My experiences with the professional volunteers bloomed from there. I was always treated with respect, compassion and care. I received chiropractic care, PT, dental cleanings and exams, and most of my medications at no charge. But what I was really left with after each visit was my dignity and a lighter heart. I vowed that when I was again on my feet, I would contribute and be a part of this worthwhile endeavour.
