

What is Health Management at the Gary Burnstein Community Health Clinic?

Health Management is free coordinated care for the uninsured that includes preventive care and access to a full suite of health services:

- The Hospital Collaborative Initiative (HCI) to reduce reliance on emergency services
- Medical Services, including a range of Specialty Care
- Dental and Denture Services
- Pharmacy Support
- Mental Health Services
- Community Outreach

Your Investment in Health Management Will Have Long-Term Impact:

- You will reduce sick time for these adults so they may return to work, take care of their families, and better participate in our society.
- You will help reduce the per-patient cost from an average of \$1,384 for an emergency room visit to an average of \$100 for a visit to the Gary Burnstein Community Health Clinic.
- You will help prevent uninsured patients from receiving medical bills they can't afford to pay.
- You will help hospital emergency rooms function better at a lower cost because of fewer non-emergency or avoidable emergency care patients.
- You will create an equitable solution for providing access to quality healthcare services to the uninsured and still reduce healthcare costs.

You Can Help Uninsured Adults Access Affordable Health Services for Health Management

Your gift to the **Dr. Jeffrey Forman Fund** will honor the memory of Dr. Forman and support his legacy to improve healthcare for our most vulnerable community members while lowering the costs of their healthcare.

You may direct your gift to any of the areas of Health Management as listed here, or designate your gift to be used where most needed.

Your gift will be recognized in our annual report, on our website, and at the Gary Burnstein Community Health Clinic in Pontiac. You may also remain anonymous. Special recognition is available for gifts of \$25,000 or more.

You can explore ways to give on our website at gbchc.org/donate or contact Paula Brown, CFRE, Development Director at pbrown@gbchc.org or 248-309-3752, ext. 223 to discuss your gift.

The Dr. Jeffrey Forman Fund for Health Management

Dr. Jeffrey Forman, the former Medical Director of Development for the Barbara Ann Karmanos Cancer Institute, began working with the Gary Burnstein Community Health Clinic in 2019 to promote Health Management for uninsured adults.

To honor the work and vision of Dr. Forman, who passed away in 2020, we have created the **Dr. Jeffrey Forman Fund**.

Donations to the Dr. Jeffrey Forman Fund will support free Health Management services at the Gary Burnstein Community Health Clinic.

"I have made a significant personal donation to the Dr. Jeffrey Forman Fund to honor his work and because I believe Health Management will be transformational for our patients and have a positive impact on healthcare overall."

- Ian Burnstein
