

“I had no idea I had a heart problem!”

Carlos heard about the Gary Burnstein Community Health Clinic from family members who have used the Clinic before. He is unable to afford insurance but says, “It feels like I have insurance when I’m here. I really needed help during the pandemic, and the Clinic was here for me.”

During a routine physical, Dr. Weitzman, the Medical Director at the Gary Burnstein Clinic, ran an EKG test and immediately insisted Carlos go directly to the nearest emergency room. Carlos was admitted and in the hospital for a full week for a serious heart condition.

“I started coming in for checkups because of a history of cancer in my family. I had no idea I had a heart problem!” explains Carlos. He feels the Gary Burnstein Clinic and Dr. Weitzman saved his life that day.

“I value the Clinic very much. It is an excellent place, I feel great coming here.”
