Dear Friends,

2023 was a year of transition. Building on our 2022 board development project, we expanded beyond our founding board to include new leaders, engaged supporters, and different perspectives. With this dynamic new group and our knowledgeable employees, we also embarked on a strategic planning process with a new mission and vision that embody Dr. Burnstein's values while meeting our patients' needs.

Last, we had an incredible addition to our leadership team: Mary Lewis became our new CEO. Coming from Kalamazoo, Mary has dedicated her career to free clinics that serve communities like ours. She is a visionary leader whose authentic style aligns with both Gary and Dana Burnstein's legacy and will strengthen our relationships with health partners, community organizations, donors, patients, and families. Please join us in welcoming Mary to the Gary Burnstein Community Health Clinic.

With Gratitude,

Ian Burnstein
Co-Chair, GBCHC

Linda Kovan
Co-Chair, GBCHC

Hello GBCHC Family,

I am honored to share with you the 2023 Annual Report for the Gary Burnstein Community Health Clinic. For 20 years, we have carried forward Dr. Burnstein's commitment to health equity, living his legacy through every patient we care for, every service we provide, and every life we touch.

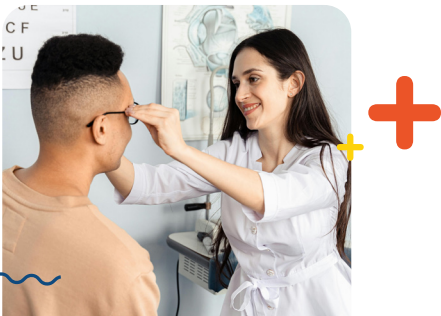

2023 Impact

Thanks to your generous support and the dedication of our incredible volunteers, 2023 was remarkable.

We created our first-ever, ten-year strategic plan, rallying our community around the goal of becoming a national model for health excellence.

Over 300 volunteers donated more than 12,000 hours of service, contributing an astounding \$866,000 in value. I would like to thank Michael and Barbara Horowitz and family for their support of the Volunteer Program.

We distributed over \$2 million in free medications, provided \$600,000 in dental services, and delivered over \$10 million in free medical care—saving local emergency departments more than \$1 million.

We also saw a shift in patient priorities, with preventative care surpassing diabetes as the top reason for visits for the first time, a reflection of how our compassionate approach is empowering people to take charge of their health.

Looking Ahead

As we celebrate 20 years of service and now look forward, we are filled with hope and determination. With your continued trust and support, we will grow, innovate, and lead in healthcare delivery. Together, we are building a healthier, stronger, and more sustainable community, and as Dr. Burnstein said, a place where every person "has the right to excellent healthcare regardless of one's ability to pay for it."

Onward and Upward,

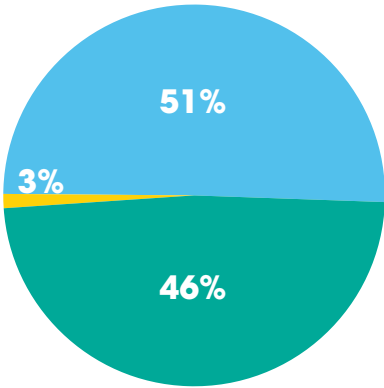

Mary Lewis
CEO, GBCHC

Success Stories

When Josefina first visited the clinic in 2023, she was overwhelmed by a cascade of health challenges—uncontrolled diabetes, persistent joint pain, difficulty breathing, constant fatigue, and the heavy burden of anxiety and depression. But then she met Dr. Weitzman, and something began to shift. Dr. Weitzman crafted a care plan that went beyond medication, guiding her toward healthier food choices, regular exercise, and consistent follow-ups. As Josefina adopted these changes, her health improved, and she regained her energy and hope. Today, Josefina is grateful to be part of the GBCHC community, where dignity, trust, and person-centered care are at the heart of everything.

When Linzie Potts became Volunteer Manager at the Gary Burnstein Community Health Clinic, she aimed to make a lasting impact—not only in patient care but in cultivating a compassionate

workforce. Before her, the program had just 75 volunteers, limited training, and struggled with consistency. In just a short period of time, she transformed it, growing the team to 300 dedicated volunteers in 2023 through orientation, professional development, and mentorship.

One of those volunteers was Chioma, a medical student at Ross University. She aspires to be a pediatrician and started volunteering during her clinical rotations. Initially a scribe, she soon found her passion in community outreach. Her experiences have been transformative, fueling her commitment to

GBCHC's mission of providing free, high-quality care to underserved patients. Chioma and the hundreds of other volunteers allow GBCHC to serve thousands of patients every year. This would not be possible without a critical donation from Mr. and Mrs. Horowitz. "They are the root and catalyst for all of our growth," Linzie says, highlighting their generosity, which facilitated rapid and sustainable expansion.

Just last year, Diabetes was the number one reason for patient visits whereas **this year preventative care has become their highest priority.** This shift proves that our approach in providing caring, compassionate, and dignified care, **our patients are empowered to take control of their health.**

Today, GBCHC is more than just a healthcare clinic providing exceptional, patient-centered care; it's also a place where volunteers can gain valuable experience, give back, and be inspired to make a difference.

You're Invited to Join Us

You can volunteer!

Volunteering at GBCHC is a rewarding way to give back, gain valuable experience, and make a lasting impact. Scan the QR code to fill out our volunteer application form at gbchc.org or contact lpotts@gbchc.org for more details.

You can donate!

Every gift, big or small, helps GBCHC continue its mission to provide free, comprehensive healthcare to those who need it most. Make a donation today at garyburnsteinclinic.org/donation.

If you're interested in other ways of giving, including gifts of stock, including GBCHC in your will, or a qualified charitable distribution from your IRA, please contact GBCHC at info@gbchc.org or 248-309-3752.
